

Transportation Policy for Ghulam Ishaq Khan Institute of Engineering Sciences and Technology.

Introduction:

GIK Institute is dedicated to promoting sustainable transportation practices that reduce environmental impacts, enhance safety, and improve accessibility for our community. This policy outlines our commitment to efficient transportation systems, alternative modes of transportation, and the reduction of greenhouse gas emissions associated with commuting and campus operations.

Sustainable Transportation Options:

- a. GIK Institute encourages the use of sustainable transportation options such as walking, cycling, and public transportation.
- b. The Institute provide safe and convenient infrastructure for pedestrians and cyclists, including well-maintained sidewalks, bicycle lanes, and secure bicycle parking facilities.
- c. Priority parking spaces will be designated for carpooling, electric vehicles (EVs), and low-emission vehicles to incentivize their use.

Shuttle Service:

- a. GIK Institute will encourage and promote shuttle bus service within the campus to reduce the number of single-occupancy vehicles on campus and to major cities on the weekend.

Electric Vehicles (EVs):

- a. GIK Institute will support the adoption of electric vehicles (EVs) by providing charging infrastructure on campus.

Campus Fleet:

- a. GIK Institute will prioritize the use of low-emission vehicles for its fleet, including electric and hybrid vehicles, where feasible.
- b. Fleet management practices will be implemented, including regular maintenance, route optimization, and fuel efficiency monitoring, to minimize environmental impact.

Education and Awareness:

- a. Educational campaigns and awareness programs will be conducted to promote sustainable transportation practices.
- b. Workshops and seminars will be organized to provide information on alternative transportation options, benefits of sustainable commuting, and transportation-related environmental issues.
- c. The Institute will collaborate with student organizations and local community groups to raise awareness and encourage sustainable commuting habits.

Collaboration and Partnerships:

- a. GIK Institute will collaborate with local government bodies, transportation authorities, and other relevant stakeholders to advocate for sustainable transportation policies and initiatives.

b. Partnerships with transportation service providers and technology companies will be sought to explore innovative solutions and improve transportation options.

Conclusion:

GIK Institute is committed to promoting sustainable transportation practices that reduce environmental impacts and enhance the overall well-being of our community. By encouraging alternative modes of transportation, supporting electric vehicles, and implementing efficient transportation systems, we aim to create a campus environment that prioritizes sustainable commuting and reduces greenhouse gas emissions associated with transportation.
